

Gary James Stilwell

MD MBA MSc | garylstil@mit.edu

BIO

Gary Stilwell is a medical physician, a Wharton MBA and a University of Edinburgh MSc honors graduate with global experience in design-driven innovation. Raised as an engineer, he enjoys taking things apart and discovering how they work. Driven by the chance to learn, to contribute and to make a difference, he has been the beneficiary of extraordinary opportunities.

Gary is currently co-founder at Porcupino, a global 24/7/365 mental wellness teletherapy platform. Over the previous three years, he had been a Fellow in MIT's Advanced Study Program, enrolled in a rigorous curriculum across the university's six schools with concentrations in Science, Technology, and Entrepreneurship. And all the while guided by *mens et manus*.

His career to-date features roles in medical product design & development with Philips Healthcare, Medtronic, J&J LifeScan, and the Gates Foundation India as well as in impact investment at Acumen East Africa, Yunus Balkans, and iLab Mexico. He worked at Yale on a NASA telemedicine program, in Japan on a photocopier assembly line, and at MTV when it was a startup. He shares two patents for an implantable cardioverter-defibrillator with his engineer colleagues.

NOW

Porcupino • healthy mental tech co-Founder Toronto Jan 2022 · present
MIT Advanced Study Program Fellow GPA 5.0 Cambridge Sep 2017 · January 2020
